

ROCOCO BLUEVARSITY PROGRAM

BlueVarsity Program - Agreement

Special Licensing Conditions for Universities and Educational Institutions

This agreement identifies certain changes to the licensing arrangements of the Rococo Impronto Simulator and the Rococo Impronto Developer Kit where the licensees are Universities and Educational Institutions. You should carefully read the following terms and conditions which amend the terms of the ROCOCO Software development and runtime licenses that you may receive. Please print out this document, sign below and return the signed document to the University Program Manager to indicate your acceptance of the following amended terms. If you do not accept the terms and conditions of this amendment, you should **make no use** of the ROCOCO software products ("ROCOCO Products") or accompanying documentation.

If you are signing this in your capacity of employee/representative of an organization, you warrant that you are authorized to legally bind such company or organization. If you are not so authorized, please obtain acceptance of this amendment from an authorized representative.

In consideration of the discounted price at which the ROCOCO Products and documentation are being provided, you agree that the ROCOCO Software development and/or runtime license acquired is for non-commercial, internal use in education or research only. The ROCOCO Products and documentation may be installed on a maximum of thirty (30) machines and may be used solely for teaching and research purposes. The research project may not be funded by the EU or by a commercial enterprise. In the event that the research is funded from these sources, please contact ROCOCO for more details.

No applications may be deployed outside of the University or Educational Institute and may not be used internally on a commercial basis. Runtime licenses may be used, if acquired from ROCOCO, for internal use and deployment only in accordance with the purposes stated above.

I hereby acknowledge that I have read and accept the particulars of this amendment to ROCOCO Software development and runtime licenses outlined above.
